

Integrating with Other Systems

Agiloft provides extensive capabilities to integrate with many of the most widely used software platforms, providing key features that can greatly extend the functionality of a knowledgebase. This includes:

- Communication via [Twitter](#).
- User authentication via a large number of [Single Sign-On](#) providers.
- Helpdesk support via [Bomgar](#).
- Document management via [DocuSign](#), [Adobe Sign Setup](#), [MS Office API Support](#), and [Direct File Edit](#).
- Human resource and payroll management via [Salesforce](#).
