

DocuSign Roles Table

This table is used to name the roles that will be assigned to Signers and people identified as Recipients in the Agiloft DocuSign Action which creates the DocuSign Envelope. It is prepopulated with four roles: Customer3, Customer2, Customer1, and Internal Signer.

When choosing recipients from within the DocuSign Action wizard, the admin selects from this list for each recipient. The role name is used in the DocuSign tags that are added to the document to match a Signer to his role, and the role names must match exactly.

New roles may be added as needed and applied to the Signers and the document tags.
