Artificial Intelligence

Agiloft's AI is designed to help decision makers make decisions. Agiloft offers extraction models that can be customized to pull out key terms and clauses from contract documents, and automatically store them as records in your KB. For more information about AI, visit the articles listed below.

> ⓘ **Prerequisites**
>
> Using AI requires either an Advanced or Premium edition of Agiloft with the AI Platform license add-on.

- AI Platform
- Generative AI
- ConvoAI
- Legacy AI
